

APPLICATION FOR PERMIT

TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

SEP 7 1965

Date of filing in State Engineer's Office

Returned to applicant for correction

Corrected application filed

Map filed

SEP 7 1965

The applicant Kenneth R. Davis
of Long Beach, County of Los Angeles,

State of California, hereby make application for permission to appropriate the public waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.)

1. The source of the proposed appropriation is an underground source in Nye County, Nevada
Name of stream, lake or other source.
2. The amount of water applied for is 2.7 second-feet
One second-foot equals 448.83 gals. per min.
(a) If stored in reservoir give number of acre-feet acre-feet
3. The water to be used for Irrigation and Domestic Use
Irrigation, power, mining, manufacturing, domestic, or other use.
4. If use is for:
 - (a) Irrigation (state number of acres to be irrigated) 160 acres
 - (b) Stockwater (state number and kinds of animals to be watered)
 - (c) Other use (describe fully under "No. 11. Remarks")
 - (d) Power:
 - (1) Horsepower developed
 - (2) Point of return of water to stream
5. The water is to be diverted from its source at the following point: the NE $\frac{1}{4}$ of the NE $\frac{1}{4}$ of Section 24,
Township 16 South, Range 48 East, M.D.B. &M., or at a point from which the
Describe as being within a 40-acre subdivision of public survey, and by course and distance to a section corner. If on unsurveyed land,
Northeast corner of said Section 24 bears North 53° 48' East a distance of 50.00
it should be stated. feet.
6. Place of use is the SE $\frac{1}{4}$ of Section 24, Township 16 South, Range 48 East, M.D.B. &M.
Describe by legal subdivision, if on unsurveyed land it should be so stated.
(160 acres).
7. Use will begin about January 1st and end about December 31st, of each year.
Month Month
8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) The well is existing & various pipelines
and ditches will be constructed to carry the water to its place of use.
State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits.

9. Estimated cost of works \$75,000.00
10. Estimated time required to construct works 5 years
11. Remarks This application is for an existing well drilled under Permit No. 14076, which covers 160 acres in the NE $\frac{1}{4}$ of said Section 24. The well has been tested and is capable of producing enough water to irrigate 320 acres. Due to the fact that there seems to be some question with regard to the ownership of Permit No. 14074, which covers the SE $\frac{1}{4}$ (160 acres) of said Section 24 we are submitting this application which would enable the applicant to irrigate the aforementioned SE $\frac{1}{4}$ from a well capable of doing so. The applicant requests that action be taken on this application.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to any other ground water development in the area. A substantial weir or other type of measuring device must be installed and measurements of water use kept. The well shall be equipped with a 2-inch opening and an air line for measuring depth to water. If well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water herein granted at any and all times.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 2.7 cubic feet per second, but not to exceed a yearly duty of 5.0 acre-feet per acre of land irrigated from any and/or all sources.

Actual construction work shall begin on or before April 27, 1967

Proof of commencement of work shall be filed before May 27, 1967

Work must be prosecuted with reasonable diligence and be completed on or before April 27, 1968

Proof of completion of work shall be filed before May 27, 1968

Application of water to beneficial use shall be made on or before April 27, 1970

Proof of the application of water to beneficial use shall be filed on or before May 27, 1970

Map in support of proof of beneficial use shall be filed on or before May 27, 1970

Commencement of work filed May 29, 1967

Completion of work filed APR 30 1968

Proof of beneficial use filed SEP 25 1972

Cultural map filed SEP 26 1972

Certificate No. 8-118 Issued 8-1-73
